IN THE DISTRICT COURT OF THE STATE OF Nevada, in and for the county of Washoe. The said action is brought to recover a divorce from the bonds of matrimony existing between you and plaintiff, and for the custody of your son and her minor children, viz: Albert, aged 13; Mary T., 10; Robert, 9; Ann, 7, and George 3 years, on grounds alleged of your willful desertion of her one year; of your habitual gross drunkenness contracted since marriage with her, incapacitating you from contributing your share to the support of her and your family, extreme cruelty on your part to her, and your neglect to provide the common necessities for her and your family, where such neglect was not the result of poverty on your part which you cannot be held avoided by ordinary industry, for one year and more; that you are harsh and of evil manners and examples to your children, unfit to have custody of your children, and she is fit and proper to be their custodian; that you and she were married the 15th day of March, 1874, and that she has resided six months and more before the commencement of this suit in Washoe county, State of Nevada all of which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have heretofore set my hand this 6th day of July, 1888.

A number of miners will be put to work in the mines of Austin, but the Revell cautions men from other places against coming there, as the home supply is equal to the demand.

The Nevada State Agricultural Society will consider S. W. Bowman's charges and offer at their next regular meeting. It will be an interesting meeting and will prove beyond a doubt that there are two sides to the question.

The people of Hamilton, White Pine county, are in hopes of much better times. There are lots of good mines in that locality, but the necessity of reduction works and the need of capital is experienced.

The rate per car on horses from Winnemucca to Eastern points are as follows: From Winnemucca to Ogden, \$60; Ogden to Omaha, \$145; Omaha to Chicago, \$40; Chicago to New York or Philadelphia, \$45; total per car, \$290.

Mrs. Little Deveraux Blake, the celebrated lecturer, will stop in Reno on her return to New York from the Teachers' Convention, and will favor the people of Reno with a lecture and perhaps two. The time and place will be announced hereafter.

Fred Elliott, formerly proprietor of the Bodie (Cal.) Standard, and well known throughout the mining regions, died in Bellevue Hospital, New York, last week of consumption. His latest work was done while on the editorial staff of the New York World.

Owing to the absence of Thaxter in the East, George Cowing in California, and the sickness of Hub Parker, the Carson Guard team has not much hope of beating the Virginia Rifles at the Caledonian picnic, but they'll make 'em shoot, says the Carson Tribune.

Mrs. E. L. Kellinger, daughter of W. N. Knox, the insurance agent, who has been living at Spokane Falls, Washington Territory, for the last five years, arrived here Monday evening on a visit to her parents. It took four days to make the trip, she coming by the California & Oregon Railroad.

The jury in the Edward N. Fish case rendered a verdict of accidental death, and added that the accident was caused by carelessness on the part of Conductor Wallace, and also on the part of the company in not having a flagman placed on the curve. This is the young man killed in the railroad collision at Pinole.

LOCAL MINING NEWS.

California Battery Mill to Start Crushing Ore Next Wednesday—Drafted Miners to Resume Work.

The Virginia Chronicle, of Monday evening contains the following mining news: Shipments of Hale & Norcross ore to the Mexican mill have been resumed after a temporary suspension of a few days pending the hanging up of stamps to admit of floating the wood drive to Empire. The shipments will average about 450 tons a week.

CALIFORNIA MILL TO START JULY 25. Next Wednesday sixty out of the eighty stamps in the California Battery mill will begin crushing Con. Cal. & Va. to supply to those hung up in the Eureka on account of the low stage of water in the Carson river. An efficient number of pans to take the pulps from under sixty stamps will also be set in motion simultaneously in the California mill.

There will be no more annoying stoppages through the parting of the steel wire rope as it will be relieved of the strain imposed upon it heretofore in operating the stamps. As previously stated in the Chronicle the stamps will be exclusively operated by the surface Pelton wheel, in the place of power transmitted from those placed in the C. & C. shaft, and the pan mill will be operated by the latter power.

The credit of suggesting this important change in the system is due to Messrs. Mackay and Fair, that simple and practical method of relieving the strain on the steel wire rope having evidently been overlooked by professional mechanical engineers. The strain has been further relieved by substituting for the former principal pulley wheel one of greater diameter.

DRAFTED MINERS TO RESUME WORK.

The hanging up of stamps in Carson river mills caused a draft of about 170 men employed in the mines of the Nevada Territory. The number drafted is greatly exaggerated by State exchanges, one of which places the number at "several hundred." Nearly all those drafted from the Con. Cal. & Va. will be put back again to-morrow to supply the California mill with ore, which it will begin crushing next Wednesday.

The force drafted from the Ophir, Mexican and Union Cons., on account of a temporary suspension of operations, pending the erection of a new gallows frame over the Ophir shaft, will resume work again next week.

JUNBO DISTRICT SITUATION.

Woods vs. Westensfeldt is the title of a suit on the District Court calendar, set for trial July 27th. Action is brought by plaintiff for the ejectment of defendant from a mining location in Junbo district, adjoining the Pandora mine now being developed by A. H. Willis, upon a part of which, it is alleged, the defendant is trespassing.

Both litigants are backed by capital, considerable of which will, in all probability, be segregated by lawyers before the suit is terminated. One of the parties in the suit is alleged to have been to the expense of resurrecting the corpse of a former claimant of the disputed location in the hope of discovering certain papers which will throw light on the title.

The annual meetings of the Benton Consolidated and Lady Washington Consolidated Mining Companies will be held at their respective offices on Wednesday next.

A DWELLING FALLS.—On Saturday

afternoon a four-room, one-story frame dwelling house on South G street, Virginia City, occupied by the family of John Williams, a miner, tumbled over on its side. The house rests on posts, which raised the lower floor six feet above the surface of the ground. Mr. Williams was strengthening this underpinning when the supports on one side suddenly gave way and the building fell over on one side. Mrs. Williams was inside of the premises preparing dinner at the time, and was hurled against the wall. Fortunately Mrs. Williams escaped with no other injury than a big scare. Her husband and daughter who were under the building, were also uninjured.

THE CALEDONIANS.—The various committees have already commenced to work for the success of their picnic to be held at Treadway's Park, in Carson, on Saturday, August 4. They intend to make it the event of the season. The athletes who intend to contest in the games are practicing daily and the winners will have to do some fine work in the exhibition of feats of strength, running, jumping, etc. The prizes now on exhibition in Virginia are costly and are trophies worthy of an effort to gain. Nasby is acting as agent for the Club here, and tickets can be secured of him. Reno should send a large delegation to Carson on that day.

GOOD SHOOTING.—The first-class team

of the Nevada Rifle Association, at Virginia, broke their own and the world's record in Sunday's contest for weekly medals scoring an average of 88 2-10ths points to the man, shooting ten shots each at the 200 and 500-yard targets. Four members of the team scored above 90 points and the lowest, (a new member) 83 points.

"SHE" TO-NIGHT.

To Be Produced in a Masterly Manner by the Webster-Brady Company.

The papers have been unanimous in their praises of Wm. A. Brady's version of "She," and this evening Renoites will have an opportunity of seeing this play produced in all its entirety, by the well-known Webster-Brady Company, which won a splendid reputation here last Fair week. Of this troupe's rendition of "She" in Oregon, the Portland News says:

The management of "She" must have felt happy last night when a peep through the curtain brought to view an audience larger than any that probably ever witnessed a dramatic performance in the New Park Theatre. It reminded one in numbers and character of a gala first night at the opera, such as we used to see in the Casino. The galleries were notably packed, and every vantage point for a good view was more than packed. "She" opens rather tamely, and if one has not read the romance, or cannot catch the dying words of Leo, he sees and hears little that promises the great effects which follow the prologue. We think, after witnessing the play, that while the papers have done Mr. Brady but justice in speaking of his dramatization, his work as the producer of scenery and mechanical effects of a highly interesting character, has not received the share of praise to which he is entitled. He follows the book not too closely in language, but in the scenery he shows his greatest forte. It is astonishingly realistic, elaborately gotten up and fairly well handled. Last night there were several hitchers, but they were all excusable and liable to a first-night production.

Mr. Brady as "Job" was very funny in many of the scenes.

Mr. Webster sustained the role of "Holly" with quiet but effective ease, somewhat after the style of the hero of "Around the World in Eighty Days."

Mr. McConnell, as "Leo," was well cast, but the dramatic episodes of the play are given to "Ayesha" (She) and "Ustane."

Miss Charlotte Tittel as "She" was admirable. The role fitted her admirably. She spoke her lines with queenly grace, and displayed her beauty and power as the author undoubtedly intended.

Laura Biggar gave the part of "Ustane" a splendid rendition. She sang sweetly enough to earn the floral tributes given her, and sustained herself well.

WOOD TEAMS CAPSIZED.—Monday

afternoon two wagons loaded with wood were capsized on the Geiger grade, near the Five-mile House. The teams and wagons rolled down the steep bank into a creek. A horse valued at \$125 had a leg broken and will have to be shot. One of the teamsters had a very narrow escape from being crushed to death under his wagon and load of wood. The teams belong to Pinschower & Brother, of Virginia City.

SEVERELY HURT.—While driving along

Sierra street the horse of Wm. Hoffman, of the Washoe brewery, became frightened at a rope lying on the ground, started to run away, and in making a short turn threw Mr. Hoffman from the wagon cutting him severely on the forehead. Drs. Toma and Lewis dressed the wound, and Mr. H. will soon be attending to his business again.

PERSONAL.—J. W. DeLano, business

manager for the Ward Comedy Co., paid this office a friendly visit yesterday. Mr. DeLano informs the JOURNAL that he represents a first-class company, and will treat the Reno people to some very funny acting. The company play next Monday and Tuesday evenings, July 30th and 31st.

McGuire's Opera House at Butte,

Montana, was destroyed by fire Monday evening. The fire caught in the scenery and spread rapidly. The Adele Payne Company was on the boards, with the "Wages of Sin." An audience of about 200 people had assembled to witness the play, but made their escape in safety. John McGuire loses \$15,000 on furniture; no insurance.

Wm. T. Coleman, of the suspended

mercantile firm of W. T. Coleman & Co., of San Francisco, communicated with his creditors on Saturday last, offering to pay forty cents on the dollar of his indebtedness, ten per cent. to be paid in cash, the balance in equal payments of one, two and three years from date of first payment.

M. E. Gilmore, architect and builder,

Reno, publishes the following card in the Virginia Enterprise:

"This is to certify that the woman, Sarah Baker, who signs her name Mrs. Gilmore, is not my wife nor ever has had a right to the name as far as I am concerned."

Free gold in ore, discernible to the

NEW ORLEANS, La.

I suffered with catarrh for many years and got so deaf that I went about my Museums, Circus and Theatre giving directions and doing business with a big car-trumpet at the side of my head. It was very annoying to me and amusing to those who saw me. By the advice of physicians I sought the climate of the Sunny South. In six months I could see no change and was discouraged. At this time I began using Chalmer's English Catarrh Cure. In three months I felt a new man, in six months my hearing returned. I refused to give a testimonial at once for the English Catarrh Cure, as I feared it was not permanent. But a year and more has now passed, and I can now heartily indorse Chalmer's English Catarrh Cure for the cure of catarrh and deafness.

PLATFORM AND SOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

Resolved, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property, increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National bank, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people, oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people, that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonstrated silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law. We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

Resolved, That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

Resolved, That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the Bond purchasing bill, equals the villainy of the secret and fraudulent demonstration of silver in 1873.

II

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wage-workers competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

III

Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail service, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonize silver and destroy the industries of our country, and for the rejection of the Carson Mint as well as the Carson for closing the Carson Mint when it was not only self sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for his efforts to convert the Government building at Carson as required.

IV

We are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

V

We demand, in behalf of our various industries, the retention of the duties on lead, borax, soda, hides and leather, and to restore the tariff of 1867 on wool.

VI

Resolved, That we recognize the right of labor to organize for its lawful protection.

VII

Resolved, That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic.

VIII

We favor liberal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the waste waters may be preserved for the purpose of irrigation.

IX

We endorse the wise and conservative administration of Governor C. O. Slocum, and we heartily commend the able efforts of Senators Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State.

X

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

XI

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

XII

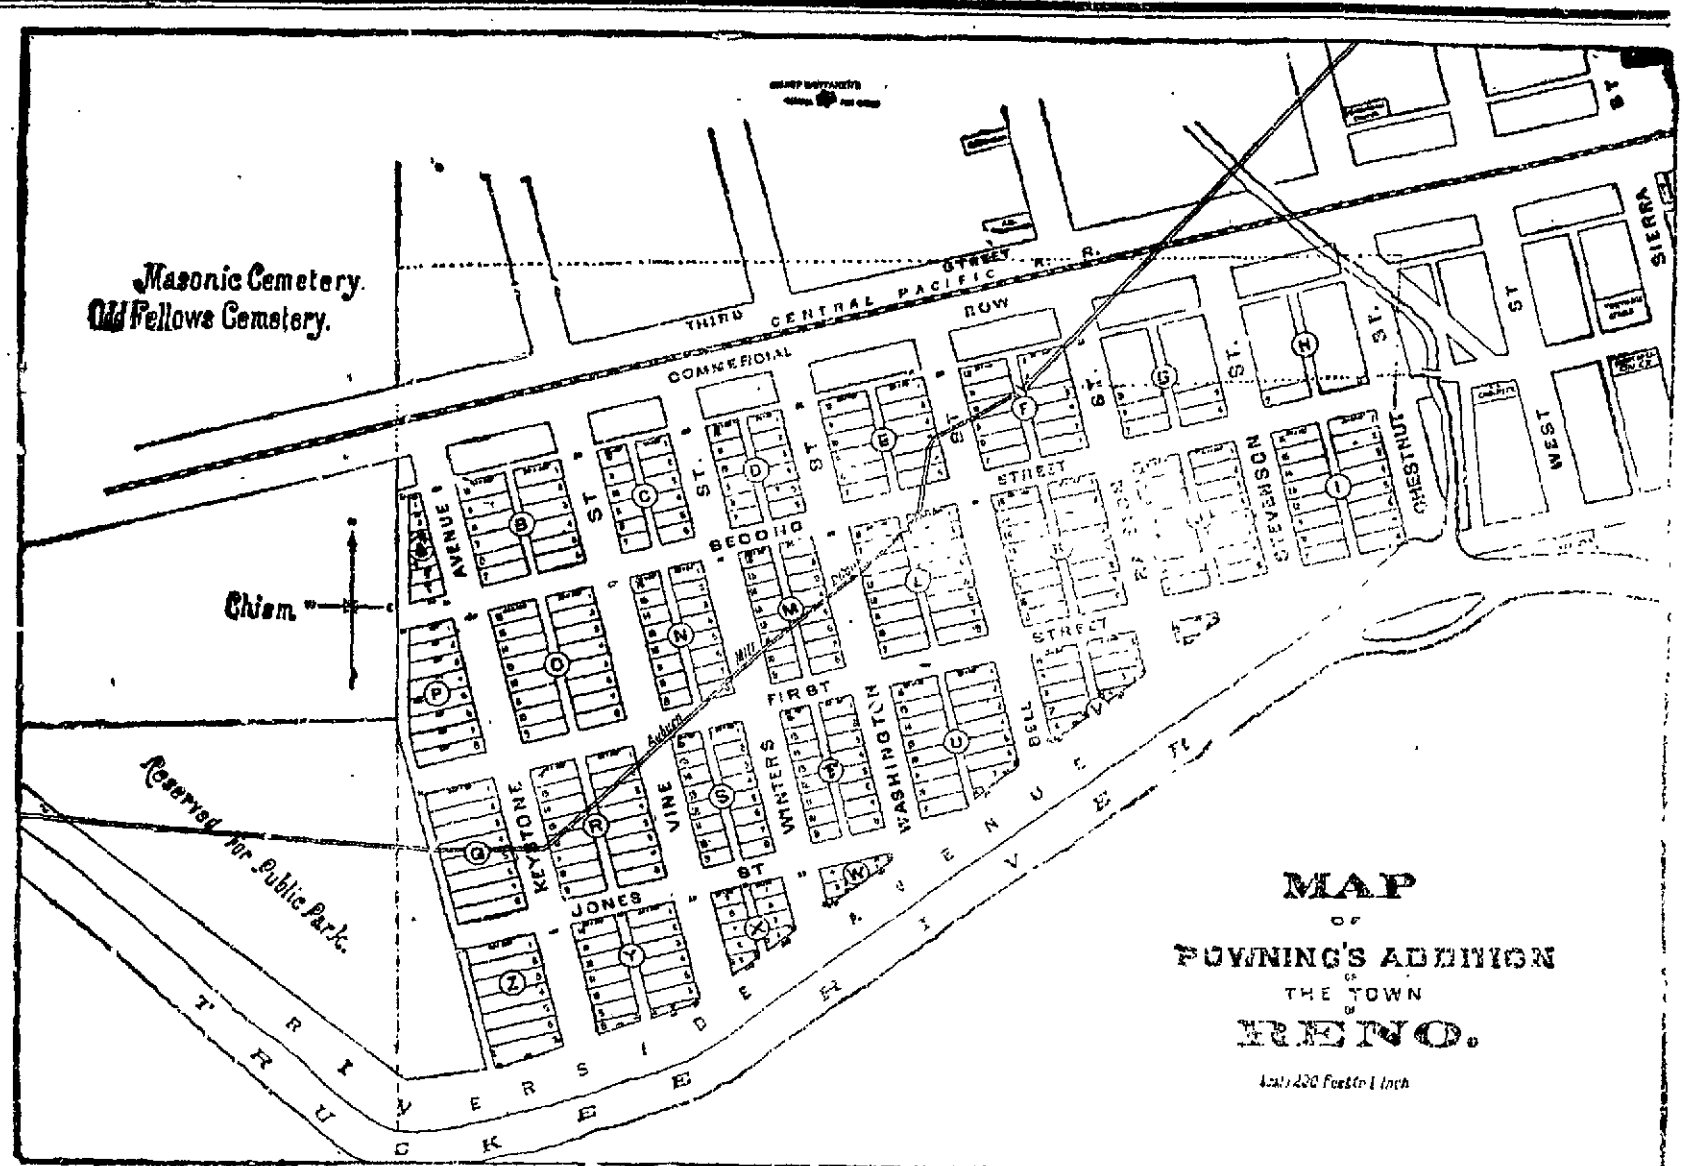

It is the duty of the State to maintain free non-sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

XIII

We are in favor of re-opening the Carson Mint for coinage, and raising the wages of its employees to the standard paid by the last Republican Administration.

XIV

We demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employees.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule. Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools. The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
